

HV-SLH20

Wi-Fi 3D Face Recognition Biometric Premium Smart Lock with Camera

Hivision
SMART

The Hivision HV-SLH20 combines advanced biometric technology with smart connectivity, providing 6 unlocking methods: Face, Mobile App, Fingerprint, PIN Code, RFID Card, and Mechanical Key. Its infrared 3D face recognition technology ensures ultra-fast and highly accurate unlocking within 0.5 seconds, even in low-light conditions. The built-in camera enhances security by allowing users to see visitors in real time through the mobile app. When the doorbell rings, an instant notification is sent to the user's smartphone, allowing remote unlocking through the app. The lock also features an auto-lock function, which automatically secures the door after a short delay—preventing accidental security lapses. Designed with premium materials and a sleek modern design, the HV-SLH20 is ideal for residential, office, and high-security applications.

FEATURES

- Smart Wi-Fi Connectivity : Control and monitor access remotely via mobile app
- Infrared 3D Face Recognition : 0.5-second fast and accurate unlocking, even at night
- Integrated Camera : View and manage door access with real-time video notifications
- Remote Unlocking : Receive doorbell notifications and unlock via smartphone app
- Auto-Lock Function : Automatically locks after a short time to ensure safety
- Premium Build Quality : Modern design with robust and durable construction
- User-Friendly Interface : Intuitive touchscreen keypad and smooth fingerprint sensor
- 6 Unlocking Methods : Face ID, Mobile App, Fingerprint, PIN Code, RFID Card, Mechanical Key

TECHNICAL SPECIFICATION

Model	HV-SLH20
Unlocking Methods	Face Recognition, App, Fingerprint, PIN Code, RFID Card, Mechanical Key
Face Recognition	3D Infrared, 0.5s unlock speed, works in low light
Camera	Integrated, supports video feed to smartphone app
Connectivity	Wi-Fi (Mobile App Control & Remote Unlocking)
Auto-Lock Function	Yes, automatic locking after a short delay
Notifications	Real-time alerts when doorbell is pressed
Power Supply	Rechargeable battery or external power (details depend on configuration)

HV-SLH20

Wi-Fi 3D Face Recognition Biometric Premium Smart Lock with Camera

Hivision
SMART

Operating Temperature	-20°C ~ +60°C
Working Humidity	10%–90% (non-condensing)
Applications	Residential homes, Apartments, Offices, Hotels, High-security access points
Warranty	1 Year
